
Guidelines for Reimbursements to Individuals For University Business (AP-01)

January 28, 2019

This guide applies to expenditures being reimbursed to or on behalf of an individual irrespective of the request format (Travel and Expense Module or non PO Voucher) and payment method. These Guidelines apply to visitors, students and other authorized travellers (excluding consultants) in the same way as for Faculty members and staff.

Note to the Reader:

Internal Audit performs quarterly continuous audits on policy and procedure adherence of reimbursements to individuals irrespective of the payment method (Travel and Expense module or Non PO Voucher) and funding source.

Travel Expense Pre Payments:

Expenses relating to travel that has not yet taken place may be reimbursed as they are incurred. These may include conference registration, airfare, and hotel deposit.

Cash Advances:

This is a payment to the traveller to cover anticipated cash expenses while travelling. Cash advances may be obtained prior to departure by using the Corporate Travel Card at any Automatic Teller Machine (ATM). When travelling outside Canada it is recommended that an ATM is used in the country of destination.

In exceptional circumstances (for example: travel to a remote location where access to an ATM is not possible) a Cash Advance may be issued to the traveller. Contact aphelp@mcmaster.ca for details.

Signing Authority:

The Purpose Approver is defined as an individual one, or, more position levels above the reimbursement requestor. The Purpose Approver reviews the purpose, reasonable cost and ensures the claim is in the best interest of the University and/or research project given the circumstances.

In cases where a research project is being charged, the Principal Investigator (PI) or PI Delegate have the additional responsibility to provide evidence that the claimant(s) being reimbursed is affiliated with the PI's research project. For example; "My student, B. Smith, attended ABC Conference in Any City from X Date to X Date which discussed XYZ that is related to my research on X."

Temporary Delegation:

Delegation of authority is permitted during temporary absences (for example: vacation, illness) of a person having permanent authority. The delegate may be one of the following:

- A superior to the normal signing authority,
- An individual in an 'acting' capacity,
- A lower level position.

The individual temporarily delegating the responsibility remains fully accountable for all transactions approved during the temporary delegation period.

Permanent Delegation:

In all cases below, a formal written notification should be on file in the department (or as applicable in Mosaic or respective Research Finance office) for future audit purposes:

- Where the chartfield being charged is an Operating (non research) Account, the Dean may delegate their signing authority to the Director of Faculty Administration or equivalent.
- Where the chartfield being charged is a Faculty of Health Sciences (e.g. Fund 80) the formally documented delegate of the Chair may be the Director of Administration or Department Manager.
- The Principal Investigator (PI) may delegate their authority to a member of the Project Team (for example: Lab Manager). The delegate however must have a strong understanding of the project.

Supporting Documentation:

Expense (business) purpose must be described in sufficient detail to allow the approver, Research Finance Offices, Accounts Payable and auditors to assess the University business or research purpose. The ideal business purpose answers Who? What? Why? Where? When? How?

Where it is not clear that the expense relates to the research project, additional information or explanation should be documented which demonstrates that the expenditure is a direct cost of the funded research. For example, claiming additional expenses beyond the conference days; "I (claimant) arrived 2 days early at ABC Conference because I had to meet with my co-presenter Dr. Smith from the University of XYZ to finalize our presentation on ABC."

Missing or No Receipts:

- Where an original receipt is missing and a duplicate cannot be obtained, the claimant or delegate preparer may add a comment to the expense report and provide proof of payment such as a credit card statement or copy of official invoice on company letterhead;
- Where the receipt is lost and there is no proof of payment, the claimant shall complete the Line Description or Notes section of the expense report detailing the particulars of the missing receipt (i.e. payee, date, amount, description of purchase). Employees who frequently fail to submit receipts should be advised that they may not be reimbursed the expense.
- Minor expenses where it is impossible or difficult to obtain a receipt may be approved at the discretion of the applicable signing authority. An itemized list of these items shall accompany the reimbursement claim. Such items include: public transit tokens/tickets, meter parking, bridge tolls, coin laundry and miscellaneous, reasonable gratuities.

Electronic Receipts and Purchases:

Many purchases are made via websites and the transaction receipt varies widely depending on the supplier. Electronic receipts should contain the following information:

- Supplier identification;
- Tax/business number, where applicable (e.g. HST, GST, QST);
- Identification of purchaser;
- Description of what was purchased;

- Amount paid along with proof of payment (e.g. last 4 digits of credit card number).

Receipts in Foreign Currency should be in the denomination of the original currency at the time of purchase. If you choose to use your personal credit card to make foreign currency purchases and want to be reimbursed at the exchange rate charged by the credit card company, you must provide the receipt/invoice along with the excerpt from your credit card statement showing the expense with the exchange rate charged.

Receipts in Foreign Language should be accompanied by an explanation of the expense.

Electronic Imaging of Original Receipts:

The University uses electronic images of original paper and electronic invoices and receipts as part of its usual course of business. The preparer of the payment/reimbursement request is responsible for ensuring the quality, accuracy, reliability and authenticity of the scanned images in Mosaic. The University considers the payment/reimbursement records in Mosaic to be the originals for business retention and audit purposes. The electronic images shall be stored for a minimum of seven (7) years beginning December 2013.

Corporate Travel Credit Card:

University travel related expenses shall be placed on the University's corporate travel card, BMO Diners Club card, issued for University business use only. Timely submission of your expense report will ensure payment to Diners Club can be made by the statement due date and minimize turnaround times. Expenses charged to the Diners Club MasterCard, including those incurred prior to the travel, shall be claimed on an Expense Report form.

Arrangements have been made to allow cardholders **30 days plus 30 days grace** from the statement date to settle their account with Diners Club before interest charges are levied. Should interest be incurred on the Diners Club card, the interest is calculated from the 31st day from the statement date.

The Diners Club Card is issued for University business expenses only. If non-business expenses are unavoidable the cardholder must personally settle non-business purchases within 60 days otherwise the activity will be reported to Internal Audit under the Fraud Policy.
